

## Sustainability Reporting

We aim to integrate Environmental, Social and Governance (ESG) principles throughout our business strategies and decisions. We view ESG as an integral part of delivering long-term stakeholder value. Therefore, this report accounts for our sustainability aspiration and performance. Additionally, where relevant, the information disclosed makes reference to the United Nations' Sustainable Development Goals (SDGs).

## Connectivity of Information

To provide an overview of how we create value for long-term sustainability, we conducted a high-level integrated capitals assessment of this integrated report to determine the linkages, impact and synergies between our financial and non-financial capitals, material topics, stakeholder expectations, strategic objectives, risks and opportunities.

## Forward-Looking Statements

This report contains forward-looking statements, with words such as "believe", "anticipate", "intend", "seek", "will", "plan", "could", "may", "endeavour" and similar expressions used to represent our judgements and future expectations. These statements involve risk and uncertainty because they relate to future events and circumstances and should be considered in light of the various important factors.

The key factors that could cause our actual performance or achievements to differ materially from those in the forward-looking statements include changes to IFRS and associated interpretations, applications and practices as they apply to past, present and future periods; ongoing and future acquisitions; changes to domestic and international businesses and market conditions such as exchange rate and interest rate movements; changes in domestic and international regulatory and legislative environments; changes to domestic and international operational, social, economic and political conditions; any labour disruptions and industrial action; and the effects of both current and future litigations.

## Assurance

The financial information contained in this report has been extracted from the consolidated Audited Financial Statements for the financial year ended 31 December 2022 and was audited by KPMG PLT. KPMG PLT has reviewed this report and did not note any material inconsistencies with the said financial statements.

We have also completed third-party verification for the PETRONAS Contractors Code of Conduct on Human Rights (CoCHR); for contractors in Malaysia by Bureau Veritas (M) Sdn Bhd.
