

PETRONAS

Ethonas TS301

PETRONAS CHEMICALS GROUP BERHAD

Ethonas TS301

is a highly effective solution that delivers superior degreasing performance, allowing tank cleaning to be done easily!

PCG recommends concentration of 12% for optimum cleaning performance

Product Properties

PETRONAS TANK TS 301	TYPICAL VALUES*	UNITS	TESTING METHOD
Appearance	Light blue liquid	-	In-house method
Initial Boiling Point	137	°C	ASTM D86
Flash Point	53	°C	ASTM D93 (PMCC)
Specific Gravity @ 20°C	0.89 – 1.00	-	In-house method
Kinematic Viscosity @ 40°C	1.20	mm ² /s	ASTM D445
pH (1 wt% in water)	5.0–7.0	-	In-house method

*These properties are typical but do not constitute specifications.

Key Benefits

PRODUCT	KEY BENEFITS
Ethonas TS301	• Strong dissolving functionality for superior degreasing performance • Solvent-surfactant system creating a miscible solution in water • Water rinsing readiness for water-wet finishing • Effective oil & grease dispersing & cleaning capability

Product Applications

Oil sludge/residue cleaning in storage tank
