

PETRONAS Group Financial Results Announcement

First Half 2022

Delivering Value for Our Collective Progress

Financial and Operational Results
by EVP & Group CFO
Liza Mustapha

Cautionary Statement

Forward-looking statements in this Financial Results Announcement presentation or in subsequent discussions with regards to this presentation involve inherent risks and uncertainties. Should one or more of these or other uncertainties or risks materialise, actual results may vary materially from those estimated, anticipated or projected. Specifically, but without limitation, capital costs could increase, projects could be delayed, and anticipated improvements in capacity, performance or profit levels might not be fully realised. Although PETRONAS believes that the expectations of its management as reflected by such forward-looking statements are reasonable based on information currently available to it, no assurances can be given that such expectations will prove to have been correct. Accordingly, you are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date they are made. PETRONAS undertakes no obligation to update or revise any of them, whether as a result of new information, future developments or otherwise.

- Overall CAPEX spent during the period increased reflective of pre-pandemic levels.
- Domestic CAPEX increased by close to 30% compared to same period last year, demonstrating PETRONAS commitment to strengthen the OGSE ecosystem.
- Activities are expected to heighten in the remaining quarters that would become a catalyst for the country's economic growth and support the country's recovery plan.

Strong Business Performance across the Value Chain

Profit After Tax / (Loss After Tax)

RM Bil

Upstream

Higher PAT in tandem with higher revenue partially offset by higher taxation as well as cash payments and products costs in line with higher prices.

Gas

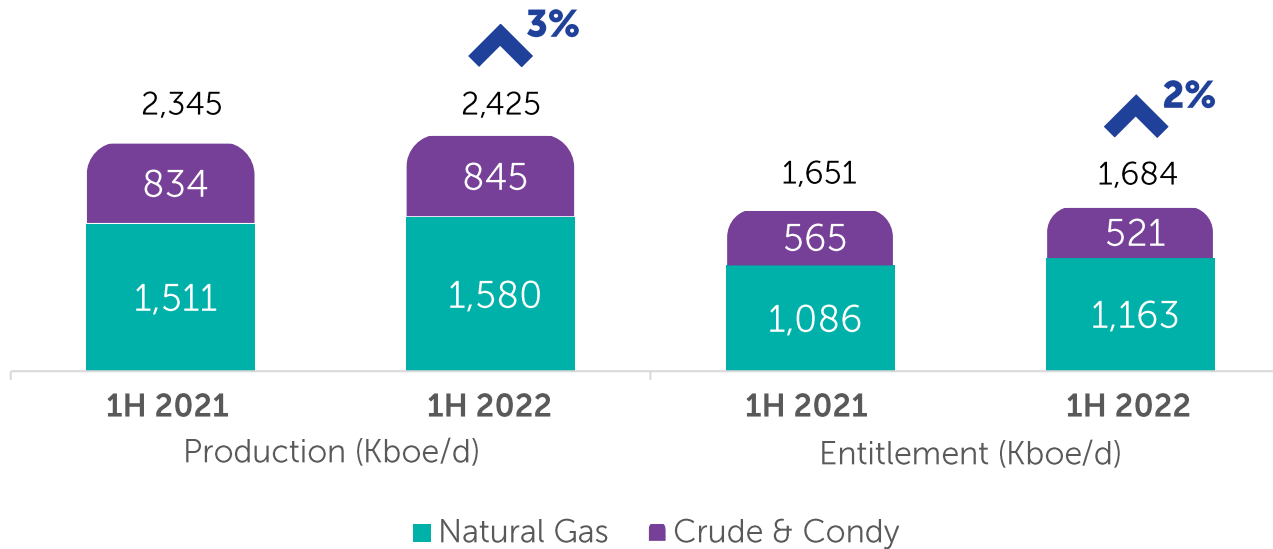

Higher PAT mainly contributed by higher revenue partially offset by higher product costs and taxation.

Downstream

Higher PAT primarily due to improved refining and petrochemicals margins in line with favourable prices.

Corporate & Others

LAT mainly due to higher operating expenditures and impairment losses on assets.

Low Carbon Excellence

25% reduction of GHG emission
for 1H 2022 compared to 1H 2021.

Expanding Core Business

PCG is expected to produce Maleic Anhydride (MAN) by 2025 to cater for the food and pharmaceutical industries after it signed an agreement in June to acquire a 113 kilo-tonnes per annum MAN plant located in Gebeng, Kuantan.

PDB demonstrated its capabilities and infrastructure readiness in supplying sustainable aviation fuel following the successful first SAF-fuelled Malaysia Airlines passenger flight from Kuala Lumpur to Singapore, further proving the feasibility of SAF as a cleaner and more viable fuel option for the aviation industry.

Stepping Out

PCG signed a Securities Purchase Agreement in May to acquire the entire equity interest in Perstorp Holding AB, a global leader in sustainable specialty chemicals, marking yet another step in its strategic diversification into the specialty chemicals industry to capture new growth opportunities.

In a move to further enhance end-to-end charging experience for electric vehicles (EV) drivers, Setel integrated a new feature on the app which enables users to locate charging stations, activate chargers, make payments, and earn Mesra points – all from the comfort of their vehicles.

Gentari Sdn. Bhd. was introduced in June 2022 to accelerate the adoption and commercialisation of clean energy with three core offerings: renewable energy, hydrogen, and green mobility solutions.

Under the Vehicle-as-a-Service (VaaS) model, GENTARI deployed 18 two-wheeler electric vehicles for delivery riders via collaboration with Eclimo Sdn Bhd in Malaysia and delivered 158 three-wheeler electric vehicles in India.

- Eagle Valence, the 1st of two dual-fuel VLCC was delivered to AET in February 2022 and subsequently to the Charterer, Chartering and Shipping Services SA in March 2022.
- It is one of the world's first dual-fuel and amongst the most environmentally-friendly VLCCs in the market, built for long-term charter.
- The sister vessel namely, Eagle Vallery was delivered to AET in April 2022.

Thank you for your passion!
