

Health, Safety & Environment Certification

All of our wholly-owned and partly-owned manufacturing sites implement PCG's Operational Excellence Management System (OeXMS). OeXMS utilises the Plan-Do-Check-Act cycle to deliver sustainable results for all aspects of our operations, including HSE.

The implementation of OeXMS allows some of our manufacturing sites to gain globally recognised certifications such as the ISO 14001 (Environmental Management System) and OHSAS 18001 (Occupational Safety and Health Management System).

89% of our wholly-owned and partly-owned operational manufacturing sites are ISO14001 certified, while 44% are also OHSAS 18001 certified. The list of manufacturing sites with such certifications are shown below:

ISO 14001

- ASEAN BINTULU FERTILIZER SDN BHD
- PETRONAS CHEMICALS AROMATICS SDN BHD
- PETRONAS CHEMICALS AMMONIA SDN BHD
- PETRONAS CHEMICALS FERTILIZER KEDAH SDN BHD
- PETRONAS CHEMICALS LDPE SDN BHD
- PETRONAS CHEMICALS METHANOL SDN BHD
- PETRONAS CHEMICALS MTBE SDN BHD
- PETRONAS CHEMICALS OLEFINS SDN BHD / PETRONAS CHEMICALS GLYCOLS SDN BHD / PETRONAS CHEMICALS DERIVATIVES SDN BHD

OHSAS 18001

- ASEAN BINTULU FERTILIZER SDN BHD
- PETRONAS CHEMICALS AMMONIA SDN BHD
- PETRONAS CHEMICALS LDPE SDN BHD
- PETRONAS CHEMICALS MTBE SDN BHD
