

Future of Industry and Work

Altoura is a VR training platform that helps enterprises onboard employees faster and reduce workplace injuries through immersive, hands-on learning.

<https://www.altoura.com/>

Enygma makes surveillance and inspection smarter, faster, and safer with AI..

<https://enygma.ai/>

AI for Workplace Safety.

<https://www.kinetixpro.ai/>

Remote inspection solution for analog gauges powered by AI.

<https://lilzgaug.com/>

TeamSolve codifies human expertise and makes it actionable for faster incident response and smarter asset renewals.

<https://www.teamsolve.com>

Patented AI-based Operational Excellence (OEx) platform for heavy industry that mimics experts to improve operations and increase profitability.

<https://www.uptimeai.com/>

Future of Energy

AltoTech offers intelligent, data-driven solutions to manage air-side and water-side systems, reducing energy consumption, enhancing operational efficiency, and driving sustainability across diverse industries.

<https://altotech.ai/>

ASUENE

Your all-in-one decarbonization partner and thrive in a net-zero future.

<https://asuene.com/apac/>

Blue Whale Energy is a battery-powered virtual power plant.

<https://www.bluewhaleenergy.com/>

World lowest-cost CO2 Separation Technology

<https://carbon-cc.com/>

Powering a sustainable future with hydrogen technology.

<http://www.faradaysenergy.com>

MUI-Robotics is a deeptech startup in Sensory AI which imitate human smell sense for Quality Control and Environmental Monitoring.

<http://www.mui-robotics.asia>

Future of Chemicals and Materials

VETOMIN-M™
Natural Multivitamin For Livestock

VETMOMIN - Innovative natural immunity booster for livestock made from coconut oil

<http://www.dunita.com.my>

greenitio

Greenitio produces sustainable, high-performance alternatives to specialty petrochemicals.

<https://greenitio.com/>

Green agritech startup addressing fertilizer inefficiency through cutting-edge controlled release technology for precision fertilization.

<http://www.nanofertech.com.my>

PLASMALEAP
Technologies

PlasmaLeap builds some of the world most advanced zero-emissions chemical reactors for hard-to-abate sectors.

<https://www.plasmaleap.com/>

Prop Tech

We are an Agentic AI power HVAC Optimisation solution company.

<http://www.carnot-innovations.com>

Simplifi.my is a digital platform revolutionizing property transactions by seamlessly connecting homebuyers with lawyers, bankers, agents, and runners - all in one place.

<https://simplifi.my/>

LOGICAL
STRUCTURE

The Modular Living of the New Era.

<https://www.facebook.com/profile.php?id=61559170544530>

Incubated Internally

AIngeer

AI Copilot for the World of Engineering.

<https://ainger.io>

Aquafish is a Malaysian aqua-tech startup revolutionizing fish farming with AI-powered solutions for sustainable, efficient aquaculture.

<http://www.aqufish.com>

Using satellite technology to detect pest & Disease in farm monitoring.

<https://proladang.com.my/>
